

Updating your password in Paragon Desktop

Log into the Paragon Desktop program using your **old password**.

Once you have logged in, select Preferences and Communications Setup.

This screen will now appear:

Completely remove the old password and type in your new password. Hit **Apply** and **OK** at the bottom of the screen. Download Paragon. The next time you log into the Desktop Program, use your **new password**.

You will need to do this change for all of the databases you have access to – Duluth Area, Minnesota Arrowhead or Superior Area. **Make sure to use the same new password for all of the databases if you want to have the drop down box appear to select the correct MLS.**
